This list is not exhaustive – ADDEV MATERIALS stocks, identifies and sources a range of obscure specifications and materials.

## ADVISORY SERVICE

► Our technical team are extremely knowledgeable and experienced in all aspects of the aerospace, defence and other specialist coatings which we supply.

## ON-SITE TECHNICAL ASSISTANCE

► Perhaps you are using a particular type of coating or product for the first time and need some guidance on specific application techniques?

## DEMONSTRATIONS

► ADDEV MATERIALS can arrange demonstrations of new paint application equipment.

## LABORATORY TESTING

► ADDEV MATERIALS can arrange independent product testing and evaluation, investigation into the causes of paint defects as well as the analysis of any application problems experienced by our customers.

## COLOUR MATCHING SERVICES

► ADDEV MATERIALS has a comprehensive library of worldwide colour standards and formulae, as well as the facility to match to customers' patterns.

## TRAINING

► ADDEV MATERIALS offers a wide range of training solutions, available to all our customers. Training sessions can either take place at our training facility in Bordon, or on-site at our customers' premises.

## CONVERTING AND CUSTOM PACKAGING

► ADDEV MATERIALS is able to provide Films and Tapes converting services and custom packaging solutions. Details on request.
